

# TILLERS

## LILLI SERIES

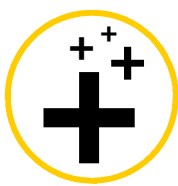

The Lilli tillers have the unique Dual-Shaft gear system. The engine has no reversing gear, but 2 shafts out of the engine. 1 for forward drive and 1 for direct reverse gear.

This makes the reverse gear function more robust, and avoids wearing gears, which are typically used on single shaft tillers

These are very robust machines which has been developed to handle hours of work.

Lilli is a universal tiller and is equipped with solid handlebars, ergonomic controls and transport wheels that are adjusted manually.

It is built on a strong frame, which makes it very stable during work.

Strong chain gearbox  
 Lifetime guarantee against  
 knife breakage  
 Several accessory options

	LILLI 345TG	LILLI 535TG
Engine	TG195D, 4-stroke	TG725D, 4-stroke
Cylinder displacement	7.5 cc / 1.4 kW	212 cc / 4.0 kW
Gears	1 forward + 1 reverse	1 forward + 1 reverse
Working width	40 cm	36-57-85 cm
Working depth	26 cm	33 cm
Rotor speed	130 rpm	160 rpm

## TX602B

The TX garden tillers run at slower rotor speeds than the Lilli models, which provides a smoother workflow and easier control of the machine.

This model is equipped with a strong Briggs & Stratton engine, adjustable handlebars, ergonomic handles and foot-operated transport wheels.

The working width can be adjusted between 30-55-85 cm. The handlebars are adjusted both to the side and in height, so that it can be adjusted individually for everyone.

	<b>TX602B</b>
Engine	B&S XR950
Cylinder displacement	208 cc / 4.5 kW
Gears	1 forward + 1 reverse
Working width	30-55-85 cm
Working depth	33
Rotor speed	110 rpm

## ACCESSORIES

Texas tillers are not only a tiller but a multi-functional machine for all-year round use.

Various optional accessories are available for all models to help with different gardening jobs.
